# MRS. RUPP ASSERTS IS WOMAN INFERIOR TO MAN? + +

# DEFIES HER HUBBY Present Conditions Important Factors In Comparing Members of the Two Sexes

Highly Civilized Woman Is No Longer Called "a Thing," but Is a Person, and the Sex Cringe Is Not Discernible Even if She Feels It.

By Nixola Greeley-Smith.

"Somewhere every woman finds a man who could dominate her if he so desired. She cannot beat her own nature, though the tear her hair, smash dishes and voice her sentiments in violent terms."

A man offers this assertion to establish apparently that woman's intellectual chains are unbreakable because she forges them herself. He does not draw this moral for us, but leaves us to infer it. Suppose we grant him that, somewhere, at some time, every woman encounters the man who could dominate her? Somewhere every man meets the master magician of his destiny. And it is one of the happy accidents of life that these magicians seldom marry each other.

It is difficult to deny that there is seek mastery of the male, and the more nearly primitive she is the stronger is her instinct of self-

MIXOLA GREELEY SMIT abasement. The fact that the human race once went upon all fours is still indicated by the baby's crawl. The fact that woman once went upon all fours is still apparent in this inherited impulse of prostration before her

In the highly civilised woman this sex oringe to not discernible. If she feels it, she never lete any one know about it. In fact, in her scorn of those submissive whispers in the blood which her cowed grandmothers have breathed into her she is apt to react too far in the opposite direction—to be needlessly aggressive, over assertive, in deal-

ing with men. In his "History of Civiliration in England," Buckle, in commenting on the fall of the older civilizations, the and he's always kicking when he is our that was Rome, attributes the decline of these nations to the fact that Mrs. Russ confirmed this emphatic if they were one-sided, that woman had

AS A THING.

he working? Y-e-a, she supposed so. They fell because society did not Where? She didn't have to tell that, advance in all its parts, but sacrificed and wouldn't. She was through with some of its constituents in order to se-him, anyway—she knew that, and that's oure the progress of others." he all there was to it. He was going to wrote, adding that in Roman law-the court, was he, after a habeas corpus or foundation of the Code Napoleon. which with few modifications still governa Europe-women was regarded not as a "person, but as a thing."

Having become persons so recently -within the last hundred years or less -it is not astonishing that we have not ceased altogether to be things or to feel like them.

It is interesting to observe, however that in the few instances where women became persons instead of things in the past they old not permit themselves to be dominated my men. Queen Elizabeth Maria Theresa, Catherine of Russia might each have said at the end of her reign: "I have been Queen." They had their favorites among men, but they were not ruled by them as kings have been ruled and nations ruined by women.

The opinions of Evening World read-

CROSS, SAYS "A. R." Dear Madan: You have asked the reason why women's souls wooble At the present time women are dronk with their own sense of freedom

Walt for the reaction. I bel'eve in women's suffrage, but I don't believe in mixing it with paint and powder and turkey - trotting. There is still hope; we have had the bustle and curling iron, but where

Woman has no cross fibre in her composition: it is all criss-cross fibre. woman had the same degree of decision that man has she would be too mechanical. She is apt to be too indifferent 'or too emotional. A rest woman goes from one extreme to the other-from passion to piety. When she is good she is awful good; when she is not she shows a degree of abandon not found in a man. Where you find a couple conscious of their ights you will not find true love. Somewhere every woman finds a mar who could dominate her if he so desired. She cannot beat her own mature, though she tear her hair, amash alshes and voice her sentiments in violent terms. They are blunt but they are truthful. A woman has all honor: man's honor is a sham.

WOMEN CAN BE INTELLIGENT. BUT NOT GENIUSES.

Dear Mudam: The argument that a man's intellect is derived from his mother and a woman's from her father makes man the starting point again. But if a son was a genius, why did no mother or slater ever become a genius? Was Shakespeare's mother an undeveloped gentus? Why did Judith, his daughter. genius, if she had any, from her father? Socrates's mother was a midwife. Solomon did not get his wisdom from his mother, who was merely How is it that talents. vices, and also physical characterstics descend in the male line? Witness the Hapsburgs, Bourbons, Romanoffs, &c. Also successions of physicians, painters, warriors, states men, where the mothers are of different blood. Geniuses as a rule have had good mothers, but not always

A good mother can make a good man, but she cannot make him a genius. The mere giving birth to a genius is no more evidence of tius in a mother than the wire that transmits a mossage is the cause of the intelligence in the

Women can be just as intelligent as men, but no woman gentus has yet been born, or ever will be, in my opinion. When women do or say something that has not already been done of said by a man it will be time enough to talk of her genius. When the Creator made the human race He made men and women different so made men and women different so that they would attract each other. No man would care a penny about a woman if she were a mere copy, duplicate, or replica of himself. She is not a rival, but a partner with a different mission. She has a fair field now, and she is allowed to do almost anything. Let her show her originality and son talking about the originality and stop talking about it.
Men of action do not usually waste
time in saying what they are going
to do—they act, and then let their
actions speak for themselves.
COMMON SENSE.

RENO, Nev., Aug. 26.-Emma Schmidt Springs, wife of Richard A. Springs of Springs & Co., No. 35 Cotton Exchange, New York City, has been awarded a divorce here. She refused to grant her husband's request that she resume her former name of Schmidt.

Springs filed a formal answer, but offered no protest. Mrs. Springs testified that her husband had left her several times, remaining away for weeks, but returned after their differences were patched up. A property adjustment was effected out of court.
